

**WAVEBRAKE**<sup>®</sup>

**THE NEW  
GENERATION  
WAVEBRAKE<sup>®</sup>**

# DESIGNED TO IMPROVE SAFETY

Traditional mop buckets may cause additional spills when moving or cleaning. Patented WaveBrake® baffles result in less splashing while mopping and maneuvering, helping to create a safer environment for patrons and staff.

**24%** 

OF WORK RELATED INJURIES  
ARE DUE TO SLIPS AND TRIPS &  
FALLS IN RESTAURANTS<sup>1</sup>

MEDIAN TIME LOST

**5.2**  
WEEKS<sup>2</sup>

MEDIAN COMPENSATION PAID

**\$10,800**  
PER CLAIM<sup>2</sup>

The Australian Work Health and Safety Strategy 2012–2022 has identified the accommodation and food services industry as a priority to reduce the high number of work-related injuries and illnesses. It records around 7,000 serious claims per year, which accounts for 6% of the total number of serious claims in Australia.

**REDUCES <sup>OF</sup> SPLASHING <sub>BY</sub> 80%\***

\*versus competitive 33L U.S. single compartment mop bucket and wringer, not including divider bucket and accessories.

# EASY TO EMPTY

The New Generation WaveBrake® mop bucket is designed to empty water with less effort.

The average mop bucket with water weighs up to **13 kilograms**. New Generation WaveBrake® incorporates an optional foot-operated drain to help empty heavy mop buckets into floor drains, eliminating the strain associated with lifting and bending.

For facilities where sinks are used, integrated handles, a sink ledge, and a pour provide control while lifting and emptying.

## BUILT-IN DRAIN

A convenient foot-operated drain eliminates the strain of lifting and bending when emptying mop buckets.

## INTEGRATED HANDLES

A convenient foot-operated drain eliminates the strain of lifting and bending when emptying mop buckets.

## POUR SPOUT

A convenient foot-operated drain eliminates the strain of lifting and bending when emptying mop buckets.

## FREESTANDING WRINGER

A convenient foot-operated drain eliminates the strain of lifting and bending when emptying mop buckets.

## DIRTY WATER BUCKET

The WaveBrake® Dirty Water Bucket nests below the wringer to keep the dirty water separate to help reduce risk of cross-contamination.

## NON-MARKING CASTERS

Non-marking casters will not scuff floors to keep them looking their best.
