

# OUR LAUNDRABLE MICROFIBRE CLOTHS AND MOP PADS ARE DESIGNED TO WITHSTAND 500 WASHES

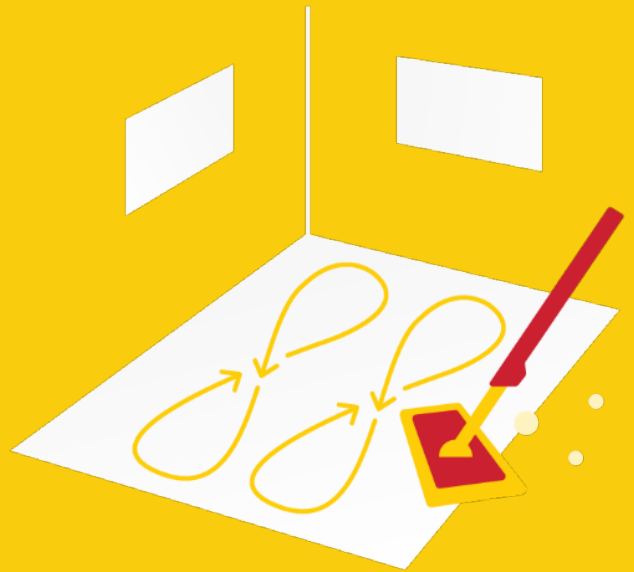

## CLEANING BEST PRACTICE INSIGHTS

### MOP IN A FIGURE 8 PATTERN

Instead of mopping in a straight line, start at the far corner of the room and mop in a figure 8 pattern. This motion will prevent cross-contamination and keep track of dirty and already-cleaned surfaces.

### USE MECHANICAL ACTIONS

Remove impurities with mechanical actions — brushing, scrubbing and wiping — to reduce the risk of illnesses or the spread of dangerous germs. Choose a cleaning style, speed and timing based on the type of grime being worked on.

Chemicals and sanitisers are used for a reason, but good old-fashioned mechanical cleaning is required as the first step.
