

THE WAVEBRAKE IS TESTED TO EXCEED 50,000 WRINGING CYCLES

Compared to regular wringers which only ran 860 cycles.

CREATE A SAFE CLEANING ENVIRONMENT

WAVEBRAKE'S ANTI-SPLASH TECHNOLOGY HELPS INCREASE SAFETY

Choose cleaning products that produce the best results, but also promote the safety of your cleaning staff. The Wavebrake Press Bucket reduces splashing by 80% with a built-in wringer to keep patrons and staff protected. The bucket's foot-operated drain eliminates lifting and bending while the large water basin lowers the number of trips needed to fill with water or cleaning product.

The better design of Rubbermaid products produces better protection against slips, falls and strains.
