

WAVEBRAKE[®] BUCKET AND WRINGER WITH BUILT-IN DRAIN ERGONOMIC IMPACT

Standard Mop Bucket

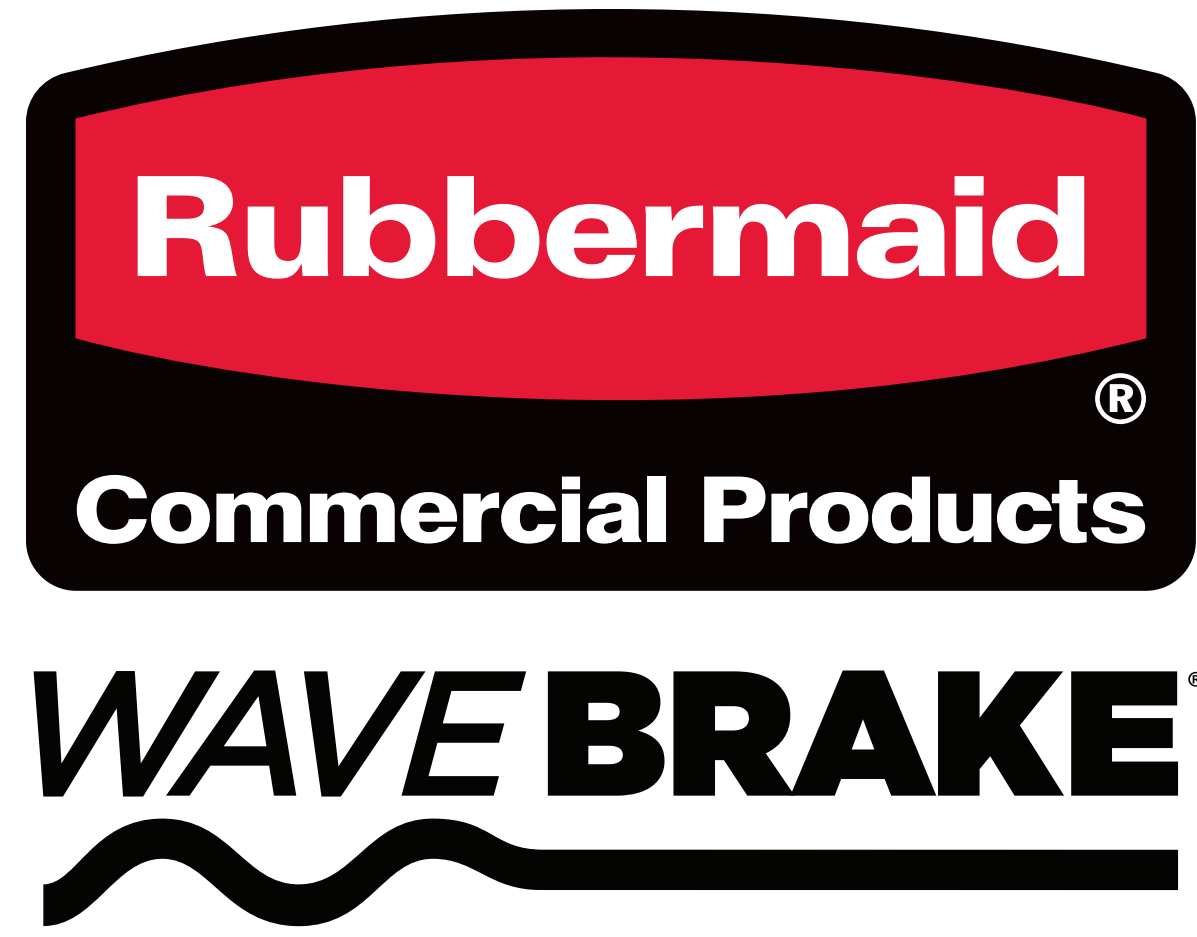

NEW WaveBrake[®]
with Built-in Drain

Standard mop buckets require the user to **bend over**, **lift the bucket**, and **empty contents**.

NEW WaveBrake[®] with Built-in Drain allows the user to **remain upright** using the **foot-activated pedal** to empty contents.

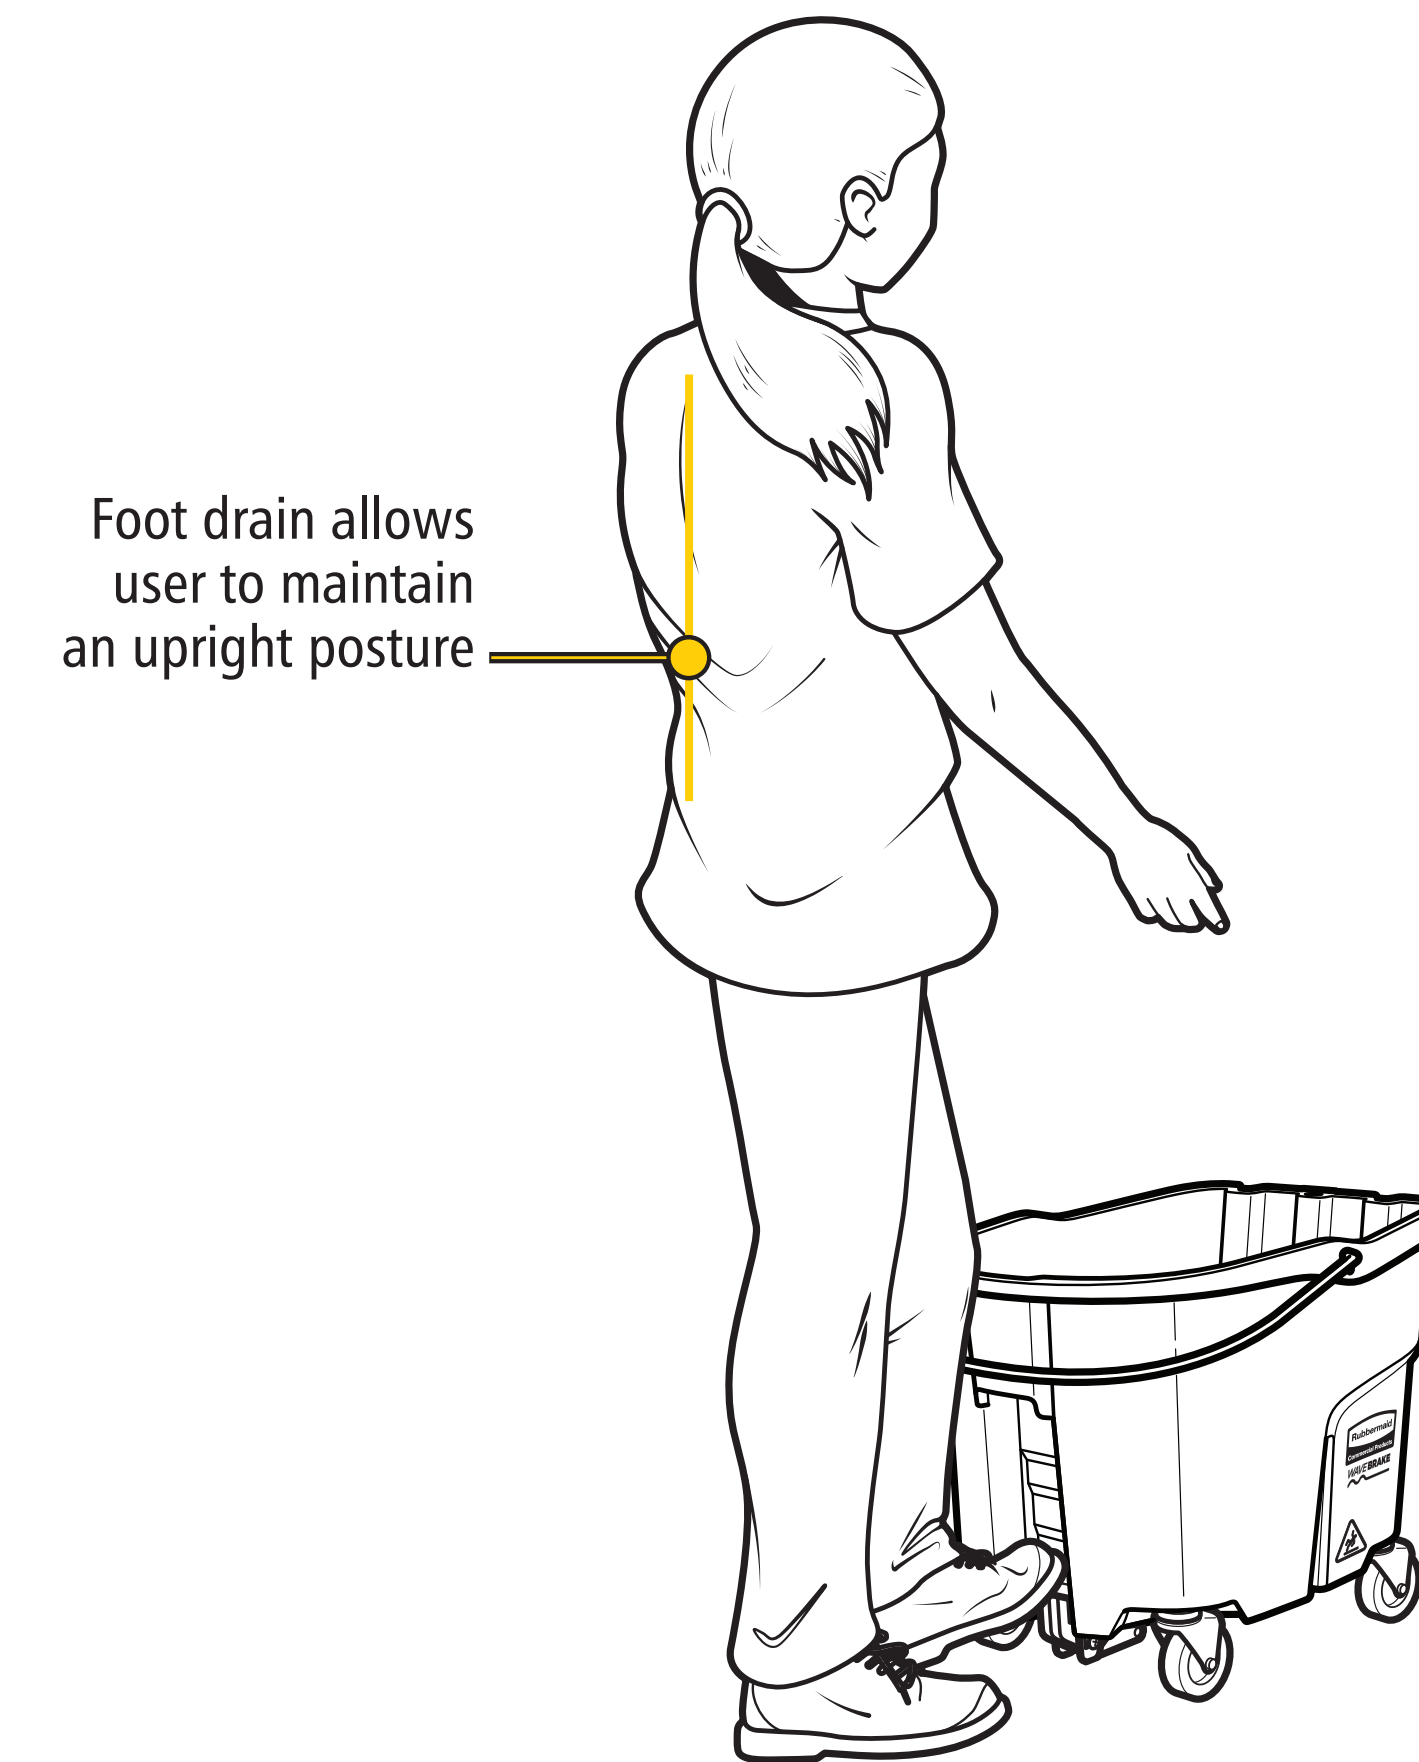

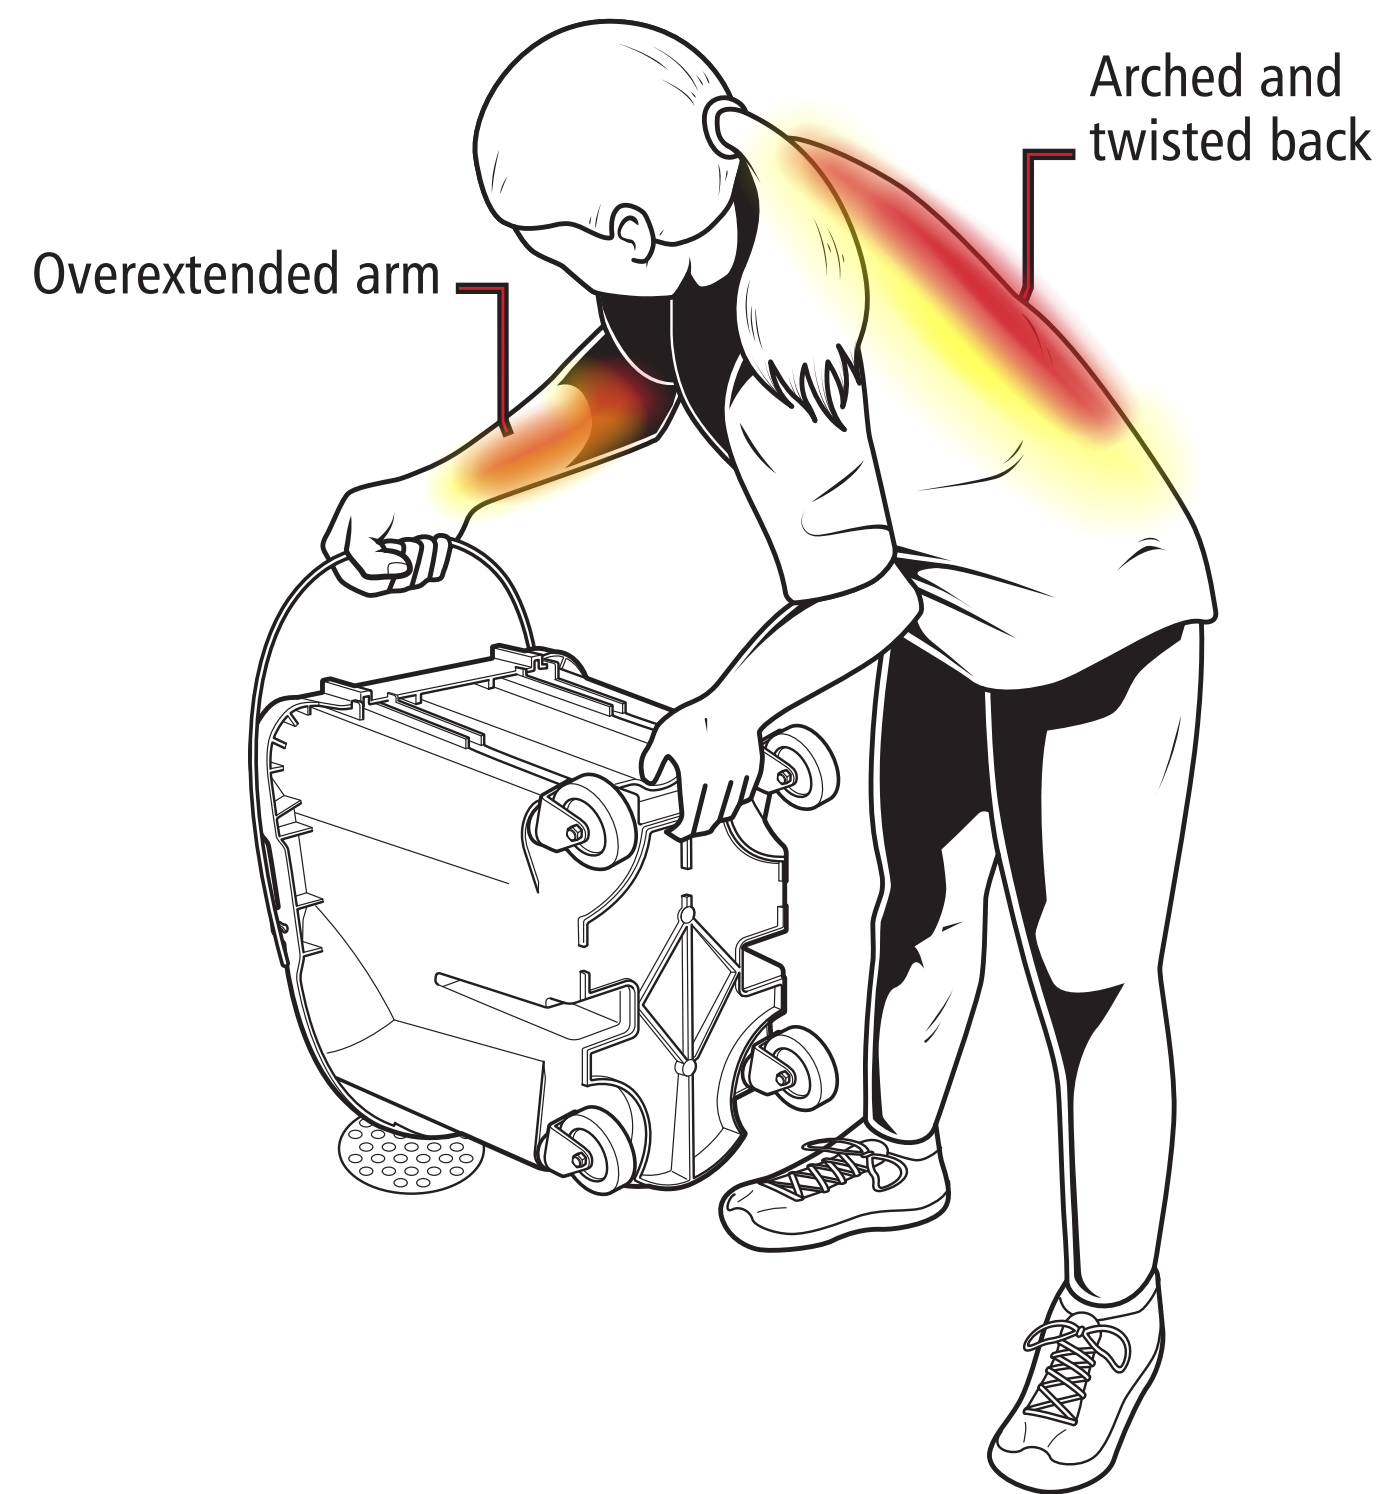

WAVEBRAKE[®] BUCKET AND WRINGER WITH BUILT-IN DRAIN ERGONOMIC IMPACT

NEW WaveBrake[®]
with Built-in Drain

Standard mop buckets require the user to **bend over**, **lift the bucket**, and **empty contents**.

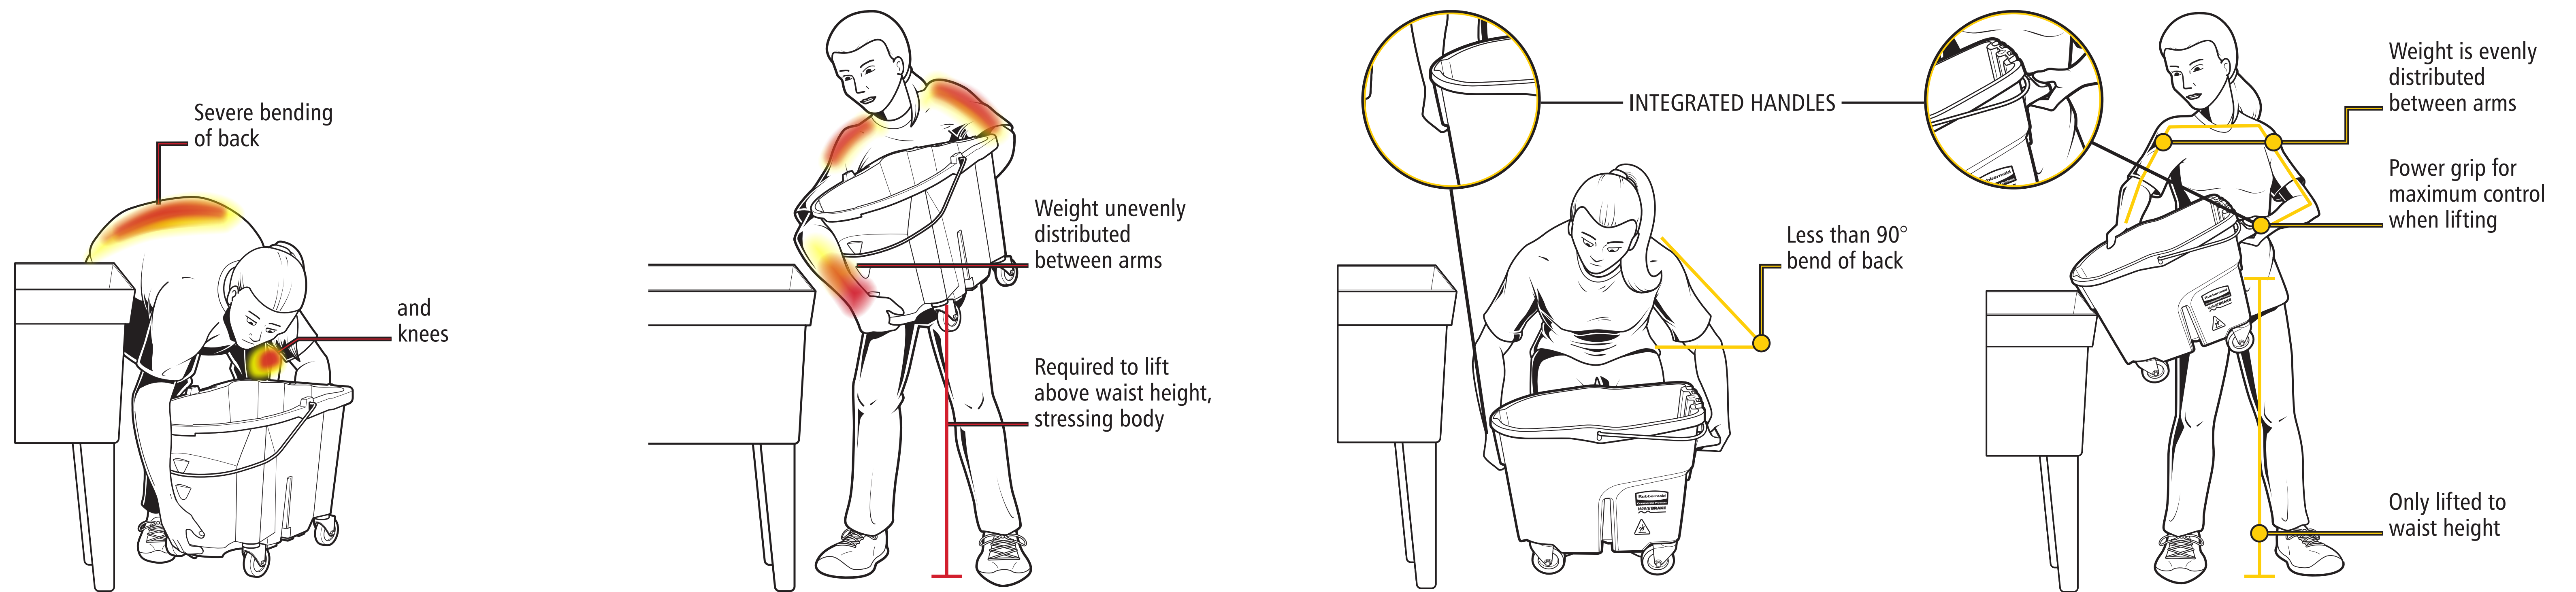

NEW WaveBrake[®] with Built-in Drain allows the user to **remain upright** using the **foot-activated pedal** to empty contents.

WAVEBRAKE[®] BUCKET AND WRINGER

ERGONOMIC IMPACT

Standard Mop Bucket → NEW WaveBrake[®]

Standard mop buckets require the user to **bend** and **lift above their waist** to empty contents into sink.

NEW WaveBrake[®] has integrated handles, a sink ledge, and pour spout to provide the user **control while lifting** and **emptying contents** into sink.
