

TOTE PICKING CART

SAVE TIME & IMPROVE FULFILLMENT EFFICIENCY

The efficiency of order fulfillment is becoming increasingly important in distribution centers. E-commerce customers continue to expect faster delivery times. With three slanted shelves, the Tote Pick cart offers x% more efficiency, allowing for x% quicker fulfillment times.

SAVES TIME

On-board tote storage reduces time spent locating totes and allowing for faster fulfillment times

INCREASED VISIBILITY

Angled shelf design offers clearer visibility to stored items, allowing for more accurate picking with fewer errors

IMPROVED ERGONOMICS

Multiple shelf design enables users to avoid unnecessary bending and lifting of products
