

TAILOR™ & LANDMARK SERIES® OUTDOOR SOLUTION

RECYCLING SOLUTIONS FOR OUTDOOR ENVIRONMENTS

The EPA has set a national goal to raise the US recycling rate to 50% by 2030*. The new outdoor recycling solutions allow the flexibility to seamlessly adapt the configuration to new streams or add a size to adjust as regulations change.

UPSCALE LOOK

Sleek, rounded edges provide a modern aesthetic that blends seamlessly into any environment.

VISUAL AIDS

Color-coded panels with dedicated waste stream labels provide visual cues to help increase recycling effectiveness.

MODULAR DESIGN

Mix and match panels that slide seamlessly into compatible metal or resin frames, making it easy to change panels as recycling needs change.
