

COMPREHENSIVE MICROFIBER SOLUTIONS

NOT ALL MICROFIBER IS CREATED EQUAL
Over 90% of airborne microorganisms in buildings are due to resuspension from floors and other surfaces.*
Microfiber plays an important role in breaking this chain of infection. Specifically, HYGEN™ Microfiber products are rooted in science: for science-based design, performance, and outcomes.

DEDICATED TEXTILES EXPERT

In-house textiles engineer dedicated to supporting product development

SUPERIOR LAUNDERABILITY

Laundered to industry standards using CDC guidelines of hot water and bleach

THIRD-PARTY MICROBE-REMOVAL TESTING

Tested for microbial removal by accredited third-party independent laboratories

*Source: CollegeStats.org, "Bacteria on Campus"
