

MICROBURST®

AIR CARE SOLUTIONS

AIR CARE

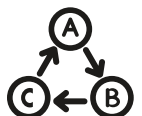

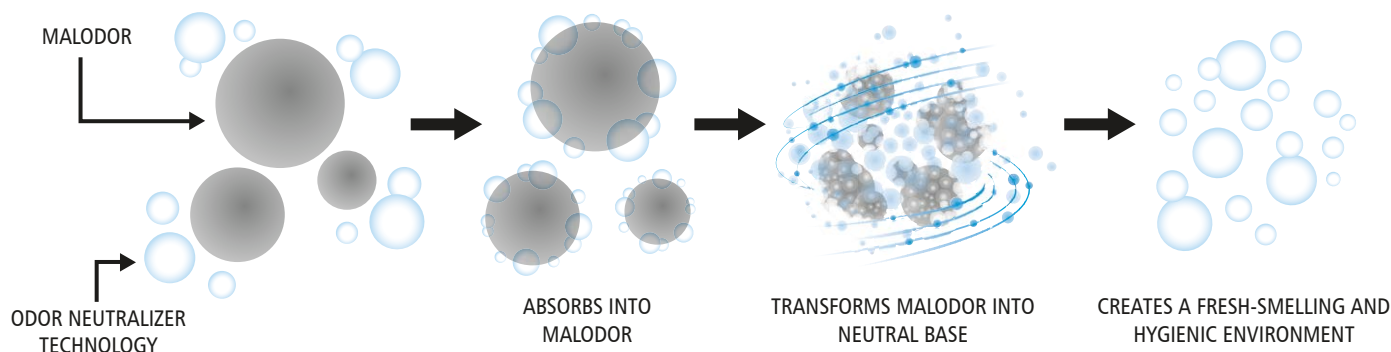

WHAT SETS RCP FRAGRANCES APART

Traditional air fresheners only camouflage malodors; all Rubbermaid Commercial Products® (RCP) fragrance options have odor neutralizers, which attack and effectively neutralize unavoidable odors in the washroom. RCP's fragrance options complete two jobs in one—removing odors and creating fresh-smelling environments.

ODOR NEUTRALIZER

Locks onto malodor molecules to neutralize the odor.

KNOW THE FRAGRANCE FAMILIES

RCP's fragrance options fall within five distinct fragrance families, based upon their scents:

FLORAL

Radiant scents, such as rose, jasmine, violet, and green scents, which are reminiscent of freshly-cut grass, leaves, and stems.

FRUITY

Luscious, fruity scents, including apple, pear, plum, mango, peach, and melon.

CITRUS

Invigorating and uplifting scents of lemon, mandarin, and other citrus oils.

HERBAL

Powerful, aromatic herbal scents, such as rosemary, mint, coriander, lavender, and sage.

FOUGÈRE

Masculine scents of lavender, moss, and woods.

AIR CARE

Protect the perception and reputation of your facility with RCP's full line of air-care solutions. Our consistent dispensing systems blend into the washroom environment, attack odors at the source, and release fresh-smelling fragrances to create the ultimate sense of cleanliness.

Microburst® 3000 with LumeCel™

- LumeCel-powered fragrance dispensers operate using indoor light.
- Alkaline battery-free dispensers provide a fresh-smelling environment for patrons.
- Product eligible to contribute to LEED® prerequisites and credits

1 LIGHT-POWERED:

LumeCel technology efficiently powers dispenser using stored energy from indoor light

2 REFILL ACTUATOR:

Patented, valve-actuating mechanism releases fine fragrance mist into the air

3 LCD FLEXIBLE PROGRAMMING:

Maximize product life and cost-efficiency with a combination of adjustable program settings:

- Spray interval: 3 to 42 minutes
- Hours per day: 8, 12, 16, or 24
- Days per week: 5, 6, or 7

4 LCD INDICATOR:

Alerts the facility staff when refills need to be replaced

2095208

COST-IN-USE:

Light-powered LumeCel technology reduces the expense of purchasing, storing, replacing, and disposing of batteries

PRODUCTIVITY:

Requires less maintenance and eliminates the task of replacing batteries

SUSTAINABILITY:

LumeCel technology provides a more sustainable option than batteries and product eligible to contribute to LEED® prerequisite credits

LumeCel™

An innovative and patented rechargeable energy system that transforms light into power.

Save time and money with the efficiency of LumeCel Technology. Staff will no longer need to purchase, store, replace or dispose of alkaline batteries.

Compared to current dispensers with alkaline batteries, LumeCel's rechargeable energy system is completely self-powered. Requiring zero alkaline batteries to operate, LumeCel Technology reduces your overall contribution of batteries to the ever growing mass of landfill waste.

LumeCel captures energy from regular indoor lighting, like solar panels gathering energy from the sun.*

Easy-to-use and ready for use, right out of the box. An internal LUX Detector makes installation and operation easy.

*LumeCel products are not recommended for washrooms with auto-light shut off features.

Microburst® 3000

- Compact dispensers that release fresh fragrances.
- Keep your washroom smelling fresh with a space-saving, adjustable dispenser design.

1 COMPACT DESIGN:

Blends into your existing washroom at half the size of RCP's Standard dispenser

2 REFILL ACTUATOR:

Patented, valve-actuating mechanism releases fine fragrance mist into the air

3 LCD FLEXIBLE PROGRAMMING:

Maximize product life and cost-efficiency with a combination of adjustable program settings:

- Spray interval: 7, 14, or 28 minutes
- Hours per day: 12 or 24
- Days per week: 5, 6, or 7

4 LCD INDICATOR:

Displays battery life and days remaining to refill, with an optional low battery/refill audio tone

1793533

Year Warranty
3

IMAGE:

Maintain a fresh-smelling environment that leaves patrons with a positive impression of your facility

COST-IN-USE:

Maximize and control product use with programmable options

SUSTAINABILITY:

Refills release fewer VOCs than RCP's previous aerosol products
