BIOHAZARD SPILL MOP

The new RCP Biohazard Spill Mop is a safe way to quickly remove liquid biohazard spills.

Features and Benefits:

- Mop handle is designed with a release lever, which minimizes contact with soiled mop when disposing
- Mop head is disposable and designed for one-time use, which prevents cross-contamination
- Once fully absorbed, the liquid becomes gel, so it will not drip when lifting
- Absorbs up to 13.5 ounces of NaCl 0.9% and 32 ounces of water
- Leaves floor drier than an RCP cotton string mop
- Mop heads and handle are compact enough to fit conveniently in most spaces
- Storage cabinet, which can hold a handle and up to 20 mop heads, can be mounted near common spill locations

Colors Available:

- Spill Mop Pad: Yellow
- Spill Mop Handle: Yellow
- Spill Mop Storage Cabinet: Gray

Material Composition:

- Spill Mop Pad:
  - Interior Layer: Polyacrylate
  - Exterior Layer: Nonwoven Material
- Spill Mop Handle: Nylon 66, Galvanneal, Aluminum, Polypropylene, and Stainless Steel
- Spill Mop Storage Cabinet: ABS
