

MATERIAL HANDLING

HEALTHCARE

The average cost of a work-related injury is \$38,000*. In healthcare, heavy lifting is a necessary part of the job. Equipment, supplies and laundry need to be moved regularly in a fast-paced environment, increasing the risk of worker injury. Ergonomically designed equipment improves safety and worker productivity, reducing costs, while quiet casters reduce noise, increasing patient satisfaction.

KEY DRIVERS

- INCREASING SAFETY
- DELIVERING PATIENT SATISFACTION
- REDUCING COSTS

WHAT GETS MOVED

Commonly Transported Items

- Waste & Recycling
- Medical Waste
- Sharps
- Linens
- Tools, Equipment, & Supplies
- Cleaning Equipment
- Food & Beverage
- Patient's Personal Belongings
- Mail & Deliveries
